

A Petition To The Iowa Legislature

From Iowa Clergy and Church Leaders

We, the undersigned, affirm our strong belief that the traditional definition of marriage is fundamentally important and necessary for a stable society. More than five thousand years of world history, more than two centuries of American history, and more than one hundred fifty years of Iowa history has shown this to be true.

Yet Iowa's highest court has declared this definition obsolete and has shown flagrant disregard for Iowa's constitution by establishing their opinion as law. We therefore strongly urge you to take action to restore Iowa's legal definition of marriage as a union between one man and one woman.
